**I. INTRODUCTION**

1. This Complaint, Compliance Order and Notice of Opportunity for Hearing is issued pursuant to Neb. Rev. Stat. § 81-1507 (Reissue 2014). The Complainant is the Director, State of Nebraska Department of Environmental Quality (hereinafter "NDEQ" or "Department"). The Respondent is Kings Industries, LLC (hereinafter "Kings"), whose facility # 88456 is located in Gretna, Sarpy County, Nebraska. Complainant has determined that the Respondent is in violation of the Nebraska Environmental Protection Act (NEPA), Neb. Rev. Stat. § 81-1501 et. seq. (Reissue 2014), and Title 132, Rules and Regulations for Integrated Solid Waste.

2. The Department is the agency of the State of Nebraska charged with the duty, pursuant to Neb. Rev. Stat. § 81-1504, of exercising exclusive general supervision, administration, and enforcement of the Nebraska Environmental Protection Act, the Integrated Solid Waste Management Act, and all rules and regulations and orders promulgated under such acts.

3. The Complaint below establishes the violations, and the Compliance Order establishes a schedule for corrective actions to be taken by the Respondent.

## **II. COMPLAINT**

4. Respondent is Kings Industries, LLC, Gretna, Nebraska, which owns and operates a temporary storage facility for the accumulation of a variety of recyclable materials at 21866 Williams Circle, Gretna, Nebraska. This 2.11 acre site is in a business park located ¼ mile west of Nebraska Highway 31 and ½ mile south of U.S. Interstate-80.

5. Kings does not have a solid waste management facility permit.

6. Pursuant to the Nebraska Environmental Quality Council's authority to adopt rules and regulations for the purpose of solid waste management, as expressed in Neb. Rev. Stat. §§ 81-1505(13)(d) and 13-2034 (Reissue 2012), the Council adopted rules and regulations codified as Neb. Adm. Code, Title 132, Integrated Solid Waste Management Regulations.

7. Neb. Rev. Stat. § 13-2033(1) (Reissue 2012) provides in pertinent part as follows: "...no person shall dump or deposit any solid waste at any place other than a landfill approved by the director unless the department has granted a permit which allows the dumping or depositing of solid waste at any other facility."

8. Neb. Rev. Stat. § 81-1506(3) states that: "It shall be unlawful for any person to: ... (d) After October 1, 1993, dispose of any solid waste at a location other than a solid waste management facility holding a current permit issued by the department pursuant to the Integrated Solid Waste Management Act."

9. Nebraska Administrative Code, Title 132, Integrated Solid Waste Management Regulations, Chapter 2, Section 001, prohibits operating a solid waste management facility without a permit.

10. Pursuant to Neb. Rev. Stat. § 81-1508.02 (1) (e), it is unlawful for any person to violate any rule or regulation under the Integrated Solid Waste Management Act.

11. Nebraska Administrative Code, Title 132, Integrated Solid Waste Management Regulations, Chapter 2, Section 002.011, does not require an Integrated Solid Waste Management Permit for:

“002.011 Recycling centers or collection sites, as long as the following conditions are met:

002.0111 Beginning January 1, 2013, and for every odd-numbered year thereafter, for each category of recyclable material, the amount of material resold or transferred offsite during the previous two calendar years must equal at least seventy-five percent (75%) by weight of the inventory of material present on January 1st of the previous odd-numbered year. This calculation must be made for each category of recyclable materials collected or processed at the recycling center or collection site.

002.0111(a) Failure to resell or transfer offsite seventy-five percent (75%) of each category of recyclable material in two (2) calendar years shall be deemed speculative accumulation for the purposes of this chapter. A facility that speculatively accumulates recyclable materials is not exempt from the permit requirements of this chapter.

002.0111(b) Written documentation that verifies seventy-five (75%) of each category of recyclable material was resold or transferred offsite within two (2) calendar years must be maintained at the recycling center or collection site.

002.0112 Recyclable materials that are stored inside buildings or in other suitable containment capable of preventing releases to the environment, are not subject to the requirements of section 002.0111 of this chapter”.

12. Kings was inspected by an NDEQ employee in July of 2012. The employee discussed with Kings' owner, Sunnay Emmanuel, the requirements for operating a recycling center or collection site as defined by Title 132.

13. Kings was inspected by NDEQ on April 1, 2015. The facility was found to have thousands of empty white plastic one quart containers, several hundred empty blue 8-10 gallon water containers, piles of broken and unbroken television and computer monitors, scattered broken unknown electrics, a pile of old carpet pad the size of several pick-up loads, PVC piping, and numerous broken pallets. Some debris of plastics, cardboard and broken pallets were pushed into a drainageway/small stream which is a tributary of Buffalo Creek and its wetlands.

14. A Notice of Violation was issued by NDEQ on April 17, 2015, and reissued on May 25, 2015, requiring Kings to remove all solid waste from the site and properly dispose of this waste in a permitted municipal solid waste disposal facility, provide copies of receipts for proper disposal to NDEQ staff, and notify NDEQ immediately upon cleaning up of the waste. Kings was also required to provide written documentation that verifies the amount of each category of recyclable material by weight present on January 1, 2013, and written documentation that verifies the amount of each category of recyclable material by weight that was resold or transferred offsite in 2013 and 2014.

15. Kings was inspected by NDEQ on October 28, 2015. The inspector found that no cleanup had been completed. Kings was informed that NDEQ had also not received any documentation regarding the recyclable materials.

16. Kings was inspected by NDEQ on December 28, 2015. The inspector found that no cleanup had been completed.

17. As of the date of this order, NDEQ has not received any documentation regarding the recyclable materials.

18. Respondent has been in violation of Neb. Rev. Stat. §§ 13-2033(1) and 81-1506 (3) (d), and Title 132 since April 1, 2015.

19. The Director of the NDEQ is authorized pursuant to Neb. Rev. Stat. § 81-1504(1) and (13) to issue this order requiring enforcement of the Nebraska Environmental Protection Act and the Integrated Solid Waste Management Act.
