Supp. 2016) and Nebraska Administrative Code (NAC) Title 119, *Rules and Regulations Pertaining to the Issuance of Permits under the National Pollutant Discharge Elimination System* (Title 119).

**II. JURISDICTION**

2. NDEQ is the agency of the State of Nebraska charged with the duty, pursuant to Neb. Rev. Stat. § 81-1504, of exercising exclusive general supervision, administration, and enforcement of NEPA and all rules and regulations and orders promulgated under such acts, including Title 119.

Respondent agrees not to contest the jurisdictional allegations referenced herein in any action to enforce this Consent Order. Respondent waives its right to further hearing as provided in Neb. Rev. Stat. §81-1507 and the Administrative Procedure Act, Neb. Rev. Stat. §84-901 *et seq.* for the violations alleged herein.

### **III. PARTIES**

4. The parties to this Consent Order are NDEQ and the City of Ogallala, Nebraska. This Consent Order is binding on NDEQ, Respondent, and any successors and assigns.

### **IV. FINDINGS OF FACT**

5. Respondent is the owner and operator of a wastewater treatment facility (WWTF) located at NE ¼, SE ¼, Section 5, Township 013 North, Range 038 West in Keith County, Nebraska.

6. On June 30, 2014, NDEQ issued Respondent National Pollution Discharge Elimination System (NPDES) Permit No. NE0040045 (Permit), which, subject to its terms and conditions, authorizes Respondent to collect and treat domestic, commercial, and industrial wastewaters generated in the City of Ogallala and then to discharge treated wastewaters to the South Platte River.

7. Among the terms and conditions of its NPDES Permit, Respondent is required to meet seasonal numeric limits for the discharge of ammonia to the South Platte River. These numeric limits are in Part I.C. of the NPDES Permit.

8. In a Discharge Monitoring Report (DMR) for the reporting period ending on June 30, 2018, Respondent reported its monthly average ammonia discharge was 7.19 mg/L and daily maximum ammonia discharge was 16.1 mg/L.

9. The reported ammonia discharges for this period exceeded Respondent's NPDES Permit limit for ammonia of 1.00 mg/L as a monthly average and 2.00 mg/L as a daily maximum.

10. Upon investigation by Respondent, it was determined that Respondent's ammonia exceedances were caused by a faulty cover and mixing system on the anaerobic digester at the WWTF, making the digester unable to perform its designed function.

11. Neb. Rev. Stat. §81-1506(2)(c) and (d) state that it is unlawful for any person to increase in volume or strength any waste in excess of permitted discharges specified under any existing permit or operate any facility in a manner that would cause an increase in the discharge of wastes into waters of the state in a manner that is not lawfully authorized.

12. Neb. Rev. Stat. §81-1508.02(1)(b) states that it is unlawful for any person to violate a permit or license condition or limitation and any provision or duty imposed by rules and regulations.

13. Title 119, Chapter 14, Section 001.01 requires Respondent to comply with all conditions of NPDES Permit No. NE0040045 and states that permit noncompliance is grounds for enforcement action.

14. Respondent is a "person" as defined in Neb. Rev. Stat. §81-1502(10).

15. Respondent has violated Neb. Rev. Stat. §81-1506(2)(c) and (d), §81-1508.02(1)(b), and Title 119, Chapter 14, Section 001.01.

16. The NDEQ Director is authorized under Neb. Rev. Stat. §81-1504(7), (25), and §81-1507(1) to require and enforce compliance schedules to prevent, control, or abate unlawful discharges to waters of the State.

#### **V. COMPLIANCE ORDER**

17. Respondent agrees to **immediately**:

- a. Continue best efforts to maintain compliance with its NPDES Permit until digester repairs or upgrades are complete. These efforts include, but are not

limited to, removing excess biosolids and the use of temporary dewatering equipment;

- c. Provide NDEQ with written updates on the funding status for the digester project, such as moneys applied for from the Clean Water State Revolving Fund or other sources.

**18. By December 31, 2018,** Respondent agrees to provide NDEQ with a written timeline for completing digester repairs or upgrades, including:

- a. Construction bid end date;
- b. Notice to proceed date; and
